Today, the Singapore economy is one of the most stable in the world, with no foreign debt, high government revenue and a consistently positive surplus. The Singapore economy is mainly driven by exports in electronics manufacturing and machinery, financial services, tourism, and the world's busiest cargo seaport. Like Singapore we are going to be Richer Indians by technology based products. We are starting with herbal products but technical products are in our main stream. We will be one of the biggest online stores till 2025. Because we are starting with the fastest people network creator which is Multi Level Marketing.
